

A unique blend of natural solvents and fast-acting glycol ethers that penetrate even the heaviest grease accumulations instantly. A safe alternative to petroleum-distillate formulas and can be used for all water-washable surfaces.

DIRECTIONS FOR USE:

Recommended dilutions range from 1 part product to 10 parts water for stubborn cleaning tasks (i.e. degreasing heavy equipment) to 1 part product to 60 parts water for light duty cleaning and degreasing.

This product can be used concentrated up to full strength on surfaces where accumulated grease and grime pose an extremely difficult problem.

Most effective when applied to the surface, scrubbed lightly with a stiff-bristled brush, allowed to set for several minutes, followed by a hot, clear water rinse.

**WATER-BASED
ALKALINE INDUSTRIAL
CLEANER/DEGREASER**

**POTENT DEGREASER/DEODORIZER
UTILIZES THE STRENGTH OF
NATURAL CITRUS EXTRACTS**

CAUTION - COMBUSTIBLE
Harmful if swallowed. See side panel
for additional precautions and
first aid instructions.
