

This thick-bodied formula contains the most powerful degreasing solvents available. It is designed to cling to vertical surfaces for maximum cleaning performance with no waste from run-off. Special emulsifiers allow loosened deposits to be easily flushed off with hot or cold water, leaving surfaces sparkling clean and free of residue.

This gel degreaser removes tar, pitch, oil, asphalt and roofing compounds from tools, forms and brick, stone and masonry surfaces.

It quickly strips thick and stubborn deposits from asphalt spreaders, rollers and other road construction machinery, also heating pots, paddles, buckets, brooms, shovels and other tools. Ideal for removing heavy, trodden deposits from concrete floors.

Use it to clean engine blocks, frames, chassis, transmissions and other parts of trucks, busses, autos, construction machinery. Excellent for degreasing 5th wheel of tractors.

DIRECTIONS: Spray or brush the gel degreaser onto the area or part to be cleaned. Allow to penetrate for 10 to 15 minutes, then flush away the loosened deposits with a pressure spray of hot or cold water. Scrubbing with a stiff brush will speed removal of heavy accumulations of grease and grime.

THICK CLINGING FORMULA

EMULSIFIABLE DEGREASER

FLUSHES OFF WITH WATER

CAUTION - COMBUSTIBLE

Harmful or fatal if swallowed. Keep away from heat or open flame. See side panel for further cautions and first aid instructions.
