

# ENVIRO FLEX PLUS CONCENTRATE

Western Environmental Services, Inc  
 P. O. Box 9035 Scottsdale, AZ 85252  
 1-800-574-3948

- \* Replaces caustic lye and alkaline-based cleaners
- \* Mixes economically with water at ratios of up to 10:1
- \* Ideal cleaner for anilox rollers
- \* Uses full strength as an excellent adhesive remover

Western Enviro Flex Plus uses biodegradable detergent technology to gain powerful cleaning action without harsh caustics or potentially metal damaging residues. Enviro Flex Plus will not harm expensive anilox rollers. Its liquid formula eliminates migrating powder problems and mixes with water easier than powders or crystals.

Enviro Flex Plus is highly concentrated to give stronger cleaning at higher dilutions with greater economy. It does not contain harsh, lye-based liquids or powders to put workers at risk of skin irritations.

**DIRECTIONS:** For cleaning Flexo Printer-Slotter, conventional Printer-Slotter using washable inks. Flexo bag presses using water-based inks and for general plant cleaning.

**INK SYSTEMS:** Dilute with 9 parts water (warm water is more effective)/ Pump through system.

**PLATES, DIES, ANILOX ROLLERS:** Dilute with 5 to 10 parts warm water.

**HARD DRIED INK SYSTEMS:** Use concentrated or dilute with 1 to 5 parts water.
